

Dear Aptos community,

The Santa Cruz County Board of Supervisors approved the Final Map for the Aptos Village Project on December 8, 2015.

There's only one catch: *It allows a substantial portion of the project to be set aside for an unknown future use.*

- **You may be one of those who thought the original proposed Aptos Village development would be good for Aptos**
- **You may be one of those who don't like the project because of increased traffic, high density, water and safety concerns.**
- **In either case, it sure looks like none of us may be getting what we expected...**
- **The developer has been given what amounts to "carte blanche" to choose what to build on what are now called: "remainder parcels."**
- **This should worry us all!**

We Are Aptos community members have concluded that legal action is necessary to insure that the Aptos Village Project retains the character and features laid out in the Tentative Map's blueprint. We insist that the Final Map adhere to all the original conditions of approval.

Please help us insure that the Aptos Village Project sticks to the plan that was approved so we don't have to live with "unknown future use"!

Donate to our legal fund. Rest assured that any legal fees recovered as a result of a successful ruling will be redistributed to each donor.

Donate now. Send a check or money order payable to We Are Aptos.
Mail to: P. O. Box 2706, Aptos CA 95001-2706.

Together we can make the Aptos Village Project better.

Thank you for your support!
